114 students, 125 Trees, One Green Promise: ANIIMS joins the "Ek Ped Maa Ke Naam" movement

Guided by the visionary leadership of Hon'ble Prime Minister, Shri Narendra Modi and his inspiring call of "Ek Ped Maa Ke Naam", ANIIMS joined the nationwide movement on 29th October, 2026 to honour our mothers and protect Mother Earth.

Dr. Mukesh Tripathi, Director, ANIIMS, planted the first sapling to inaugurate the drive followed by other dignitaries. Thereafter, 114 students of the 2026 batch planted 125 trees across the campus.

Tree plantation is among the most lasting contributions a community can make to its surroundings. For a campus that trains future doctors, a healthier environment is part of a healthier community. The "Ek Ped Maa Ke Naam" initiative gives this work a personal meaning. For the students, it was a chance to begin their medical journey with an act of care that will grow alongside them. The campus will carry these 125 saplings for many years and the institute hopes they inspire more such efforts in keeping with the spirit to make Sri Vijaya Puram greener and healthier for generations to come, a press release from ANIIMS said.
