The prison structure should be designed to provide all the necessary facilities for prisoners to be treated as human beings and subject them to an environment conducive for their reformatory treatment.

2.02 The following criteria must be adopted for the establishment of prisons:

- i) The Union Territory Administration will establish sufficient numbers of prisons, as far as possible, and provide minimum needs essential to maintain standards of living in consonance with human dignity.
- ii) Prisons will ensure that prisoners retain all their rights as human beings within the limitations of imprisonment.
- iii) Prisons will ensure separation of the following categories of prisoners: a) Women (b) Young Offenders (c) Undertrials (d) Convicts (e) Civil Prisoners (f) Detenués (g) High Security Prisoners.
- iv) The prisons' regime will prepare prisoners to lead a law abiding, self-supporting, reformed and socially rehabilitated life.
- v) Diversified Institutions will be set up by each State/Union Territory according to its requirements.
- vi) In order to make prisons efficiently manageable units, norms regarding maximum population for different types of prisons will be laid down.
- vii) Service conditions of prison personnel will be such as to secure and retain the best-suited and qualified persons.
- viii) Efforts will be made to enlist community participation in effective administration of prison programmes.

Institutional Pattern

2.03 The Union Territory Administration shall adequately provide for the diversification of Institutional resources to cater to the differential requirements of prisoners in terms of custody and correction. The factors to be considered will include age, sex, legal status of the prisoner, nature of crime, length of sentence, security requirements state of health and Correctional needs. Such a course implies the setting up of separate institutional facilities for different categories of prisoners, such as:

- Prisons/annexes/yards for under-trial prisoners.
- Maximum security prisons/annexes/yards for security risk prisoners and habitual or hardened offenders.
- Open prisons, semi-open prisons and open colonies/camps.
- Prisons/annexes/enclosures for women prisoners.
- Prisons/annexes/yards for young offenders.

2.04 Union Territory Administration shall establish a mechanism for the classification of prisoners to be housed in various types of institutions as enumerated above and will lay down the procedure to be followed. They will also specify the authorised population for each type of institution and

norms with regard to area/space for prisoners as well as the number of prisoners to be housed as suggested in this Model Prison Manual. This may also include facilities for education, vocational training, work programmes, and cultural activities, library and recreation, both indoor and outdoor. It may also give specifications for the staff to be appointed in each type of institution. Apart from various types of prisons for specific categories of prisoners, State governments may create temporary prisons to deal with emergent situations.

Prison Architecture

2.05 Prison Architecture has to be based on the following:

- i) The location of a new institution will be decided on the basis of —

 - (c) Programme content of the institution.
- ii) New institutions will not be constructed near easily flooded and inundated areas, frontiers and international borders, sub-marginal land areas, sea-faces, airports and congested urban localities.
- iii) While selecting the site for new institutions, factors like transport facilities, water supply, electric lighting, connections with high power electric transmission lines, drainage and sewage, communication facilities (such as posts, telegraphs, telephones and internet) climatic conditions, facilities for the purchase of institutional supplies, have to be taken into consideration. Also, institutions like courts, civil hospitals, mental health centres, educational facilities for children of prison personnel, should as far as possible be within easy reach.
- iv) No building, other than the prison, will be constructed within 150 mtrs. of the prison wall of a Central Prisons, within 100 mtrs. of the prison wall of a District Prison and within 50 mtrs. of the prison wall of Sub-Prison.
- v) The Architecture of institutions will be governed by two principles viz. (a) adequate protection to society through the establishment of Security Conditions; and (b) adequate resources which would be necessary for the successful implementation of various correctional programmes. Institutional design and architecture have to be functional.
- vi) The plan of an institution will be based on a careful analysis of inmate population, age group, custodial, requirement, diversified work, educational programmes, etc.
- vii) Closed prisons are classified into three categories that is central prisons, district prisons and sub-prisons. Authorised population for these prisons will not exceed 1000, 500 and 300 prisoners, respectively.

- ix) No building inside a prison will be nearer than 50 mtrs. to the perimeter wall.
- x) The area of an institution will be fixed in accordance with the needs of an institutional programme.
- xi) The requirements of segregation of inmate groups within an institution in accordance with the prescribed principles of classification will be provided for in every building plan. The requirements of administration and supervision will also be taken into account while planning buildings.
- xii) Each region/division will have an institution for women prisoners according to local requirements. Each central, district and sub-prison will have an enclosure for women- prisoners.

- xiii) The existing enclosures for women in common prisons will be renovated to ensure that women prisoners do not come in view of male prisoners during their passage to and from these enclosures. These enclosures will have a double lock system – one lock outside and the other inside, the keys of the latter always remaining with a woman guard inside. The institutions/enclosures for women prisoners will have all the requisite facilities with reference to their special needs such as segregation, protection, pregnancy, child-birth and family care, healthcare, training and rehabilitation, etc.

CHAPTER X REPATRIATION OF

PRISONERS

Method of calculating a Sentence

- 10.01** A number of Indian prisoners are lodged in various countries undergoing their sentences while, a number of foreign prisoners are similarly lodged in Indian prisons. These prisoners are unable to meet with their families due to long distances and this loss of contact with family members hinders their rehabilitation and reformation. Such prisoners may be brought back for undergoing the remaining period their sentence under the various bilateral and multilateral agreements entered into by India, through the process of repatriation under the aegis of Repatriation of Prisoners Act, 2003 and Repatriation of Prisoners Rules, 2004.
- 10.02** Presently, India has entered into bilateral agreements with 27 countries (listed below) and has acceded to one multilateral treaty i.e. the Inter –American Convention on Serving Criminal Sentence Abroad (IAC), which is signed by the Member State of the Organization of American States (OAS) but it is also open to accession by non-OAS countries. Currently, India has functional arrangements with 36 countries (20 countries under bilateral agreement and 16 countries under Inter American Convention on Serving Criminal Sentence Abroad) for transfer of sentenced persons. These countries are United Kingdom, Mauritius, France, Bulgaria, Egypt, South Korea, Saudi Arabia, Bangladesh, Sri Lanka, Cambodia, Israel, UAE, Iran, Italy, Maldives, Turkey, Thailand, Russian Federation, Kuwait, Hong Kong Special Administrative Region and Argentina, Belize, Canada, Czech Republic, Chile, Costa Rica, Ecuador, El Salvador, Guatemala, Mexico, Nicaragua, Panama, Paraguay, United States, Uruguay, Venezuela.

Out of these, India has operational agreements with the following 20 countries: United Kingdom, Mauritius, Bulgaria, France, Egypt, Sri Lanka, Cambodia, South Korea, Saudi Arabia, Iran, Bangladesh, Israel, UAE, Italy, Turkey, Maldives, Thailand, Russian Federation, Kuwait and HK SAR, Indian prisoners undergoing a sentence in the prisons of these countries may be brought back in terms to these agreements, and nationals of such countries can be repatriated to their native countries in accordance with the agreements.

- 10.03** India has also acceded to multilateral convention of the Organisation of American States a regional organization having 35 member States. The Inter American Convention on Serving Criminal Sentences Abroad was adopted on 9th June, 1993 and came into force on 12th April, 1996. It is a multilateral treaty, which lies under the framework of Organisation of American States. India is also in the process of acceding to the Council of Europe Convention on transfer of Sentenced Persons. The Council of Europe Convention on Transfer of Sentenced Persons came into being on 12th April, 1983 and is effective since 1st July, 1985. So far the total 64 countries have ratified the convention. Out of these, 45 countries are the member State of the Council of Europe – Albania, Andorra, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovenia, Spain, Sweden, Switzerland. The rest 19 countries namely Australia, Bahamas, Bolivia, Canada, Chile, Costa Rica, Ecuador, Honduras, Israel, Japan, Korea, Mauritius, Mexico, Panama, Philippines, Tonga, Trinidad and Tobago and United States of America, Venezuela are non-member states of the Council Of Europe (COE).
- 10.04** The procedure for processing such repatriation request is briefly described below and is detailed in guidelines issued by way of advisory by MHA on 10th August, 2015.
- a) The request for transfer should be made by the prisoner or anyone acting on his/her behalf voluntarily.
 - b) This request should be forwarded by the prison authorities of the country where he is lodged to the prison authorities of the country where he is to be repatriated.
 - c) The prisoner should be undergoing a sentence after being convicted by the court of law for an act which is an offence in both the countries i.e. the Transferring country as well as the Receiving Country.

-
- d) There should not be any other cases pending in a court of law at the time of making such a request and the prisoner should not be wanted in any other proceeding by any investigation agency.
 - e) At least 06 months period of his sentence should remain for such request to be considered.
 - f) On transfer the prisoner would undergo either the remaining period of his sentence or his sentence would be adapted in terms of existing provisions of law in the Receiving country without aggravating the period of his sentence. The period of sentence so adapted should closely be in line with the sentence awarded to him in the court of law in the country where convicted and can be modified to bring it in line with similar provisions in the Receiving country.

All the Missions of the country abroad and the prison administrations in the States/UTs have been apprised about the guidelines for repatriation of eligible inmates who can be considered for such repatriations.

CHAPTER XI EXECUTION OF SENTENCES

Method of calculating a Sentence

- 11.01** The duration of a sentence shall be calculated in calendar years, months a fortnight, a week or days. The term 'year' means a year according to the British calendar, a 'month' means thirty days, a 'fortnight' means fourteen days and a 'week' means seven days.
- 11.02** When a prisoner's sentence includes a fraction of a month, the date of release shall be calculated by reducing such fraction to days. A month, for this purpose, shall consist of thirty days. For example, if a prisoner is sentenced to one and half months' imprisonment on 2nd February. The date of his release shall be 16th March. A prisoner whose date of release fall on Sunday or Jail Holiday shall be liberated on the preceding day, and entry that effect is to be made in register.

Serving of Sentences

- 11.03** In whatever order the sentences are served, a prisoner is liable to serve the aggregate of the terms of all the sentences, provided that under no circumstances shall a prisoner be detained in prison beyond the period indicated by the terms of the warrant of commitment.
- 11.04** In case of doubt, as to the order in which the sentences shall take effect, instructions shall be taken from the court imposing the last sentence. A prisoner whose date of release falls on Sunday or Jail Holiday shall be liberated on the proceeding day an entry to that effect being made in Register.

Commencement of, and Breaks in, Imprisonment how Reckoned

- 11.05** In calculating the date of expiry of a sentence of imprisonment in a criminal case, the day on which the sentence was passed and the day of release shall both be included as days of imprisonment. A prisoner who is punished till the rising of the court only, shall be released from the court itself and not admitted to prison. In the case of a prisoner who is punished till the rising of the court and is awarded another sentence on the same day, the latter sentence shall start from the date on which the sentence is awarded. If a prisoner is sentenced to imprisonment for 24 hours, he must be kept in prison for the exact number of hours. In such cases, the sentence shall be deemed to commence from the hour indicated in the warrant. Prisoners sentenced to one day's imprisonment shall be admitted in prison and released on the same day.

Example 1: A prisoner sentenced on 1st January to one month's imprisonment shall be released on 31st January and not on 1st February.

Example 2: A prisoner sentenced on 28th February to one month's imprisonment shall be released on 27th March.

Illustration 3: A prisoner sentenced on 1st January to one day's imprisonment shall be released on the same day. But if he is sentenced to imprisonment for 24 hours he shall be kept in confinement for that period and not released before the hours are up on 2nd January.

- 11.06** The period of imprisonment to be undergone shall be reckoned from the date on which the sentence is passed, except in cases which fall under Section 31, 426 and 427 of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974), where the directions of the Court shall be followed.

Explanation: In the case of a prisoner sentenced to imprisonment in default of fine, the period of imprisonment shall be reckoned from the day on which he was re-arrested for failing to pay the fine imposed.

- 11.07** If the month in which the sentence of a prisoner expires has no date corresponding to the date of sentence, the last day of the said month shall be taken as the day of expiry of sentence. The same principle shall apply when the sentence is reduced in sentence of payment of fine or grant of remission.

Date of release when two or more Sentences run consecutively

- 11.08** When a prisoner is sentenced to two or more periods of imprisonment to be served consecutively, the date of release shall be calculated considering both terms as one.

Example 1: A prisoner sentenced on 21st November, 2000 to two substantive terms of imprisonment of one year each shall be released on 20th and not on 19th November, 2002.

Example 2: A prisoner is sentenced on 1st January to two months imprisonment and a fine of Rs.200 or, in default, to one month's imprisonment. If the fine is not paid, he shall be released on 31st March, but if the fine is paid, then on the last day of February.

Date of release in the case of Prisoners Sentenced to imprisonment for life

- 11.09** The imprisonment for life technically means imprisonment for the whole life. The sentence of all prisoners sentenced to imprisonment for life or to more than twenty years imprisonment in a aggregate, shall, for administrative purposes of calculation of the normal date or release, be deemed to be sentences of imprisonment for twenty years except those who are covered under 433 (A) Cr.P.C.
- 11.10** If a sentence of death is commuted to one of imprisonment for life, or imprisonment for a term, the sentence of imprisonment for life or imprisonment for a term shall be deemed to commence from the date on which the sentence of death was passed.

Unexpired Sentence of an escaped Convict

- 11.11** In the case of an escaped prisoner, subsequently arrested in connection with another offence, any period spent on that account in police custody, or as an under-trial prisoner, shall not be reckoned as imprisonment under the original sentence.
- 11.12** Necessary entries shall be made in the Register of Prisoners to be released in place of the original date of release in respect of all such prisoners.

Date of release of Prisoners Sentenced for escape

- 11.13** If a prisoner receives a sentence for escape from prison the date of release shall be re-calculated in accordance with Section 426 of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974) and entered in the Register of Prisoners to be released in place of the original date of release.

Periods that will not count towards Sentence

- 11.14** In the following cases, the period spent by prisoners outside the prison, known as at large period, shall not count towards sentence:
- i. Escape.
 - ii. Bail.
 - iii. Suspended period of sentence, including emergency leave.
 - iv. Unauthorized extension of temporary release.
 - v. Suspended period of sentence if directed by the court.
 - vi. Suspension of sentence for police investigation.
 - vii. Violation of conditional release.
 - viii. Extradition.
- 11.15** A prisoner released on bail in court on the day he is sentenced without having been sent to prison, shall not be deemed to have served any part of his sentence.
- 11.16** Convicted prisoners removed from a prison in one State to prison in another State under the provisions of the Transfer of Prisoners Act, 1950 (Central Act XXIX of 1950) shall be deemed to be undergoing their original sentence in the prison where they have been transferred.
- 11.17** When a conditionally released prisoner is readmitted in prison owing to an infringement of the terms on which he was released, the unexpired portion of his sentence shall be carried out without waiting for the receipt of the government orders, which shall be applied for through the Inspector General immediately on admission of such prisoner. In such cases, the unexpired portion of sentence shall be deemed to have commenced from the date of the prisoner's re-admission in prison.

- 11.18** In the case of a prisoner released on bail on a day subsequent to that on which he/she was committed to prison, but who is again committed to undergo sentence in the same case, every day of admission and every day of release shall be counted as days of imprisonment in respect of such sentence.
- 11.19** In cases where there are more than one “at large” periods, the aggregate total of all such periods shall be worked out in terms of days and added to the substantive sentence. The date on which the sum of these periods elapses, counting from the date of conviction, shall be the date of expiry of sentence.
- 11.20** In the case of a convict who has to attend the court on the very day of his/her release, for a case for which he is not on bail, he shall be treated as released in the morning and sent to court as an under trial prisoner. If the prisoner is sentenced to further imprisonment, on that very date, the sentence shall be calculated from the following day.

When a Foreigner is Sentenced to a term of Imprisonment

- 11.21** If a foreigner, apprehended and detained under Section 4 of Foreigners Act, 1946 (Central Act 31 of 1946), has to undergo a term of imprisonment, the period of detention under the Foreigner’s Act shall be exclusive of and additional to the period of any sentence of imprisonment which may be imposed upon him/her.

Calculations of Date of release on re-arrest and recapture of a Prisoner

- 11.22** The following method shall be adopted in calculating the date of release of a prisoner who, after conviction, is released on bail but is afterwards recommitted to prison to serve his sentence, or who escapes and is subsequently recaptured.
- 11.23** Add the number of days for which the prisoner was on bail, or was at large, to the term of the sentence, exclusive of the day of release and re-arrest, or of escape and re-capture. The date on which the sum of these periods will elapse, counting from the date of conviction, shall be the date of expiry of sentence.

Example: A prisoner sentenced on 1st January to one month’s imprisonment escapes on 15th January and is re-captured on the 16th. He shall be entitled on the original warrant to be released on the 31st January.

- 11.24** If a convicted prisoner, who has been released on bail, commits an offence during his bail period and is readmitted to the prison, the at large period shall be counted up to his date of readmission.

Calculation of Sentence of Imprisonment in default of Payment of Fine

- 11.25** Sentences awarded in default of payment of fine shall be calculated as follows:

- (i) Sentences imposed in default of payment of fines cannot run concurrently **until unless it is not ordered by concerned court.**
- (ii) If a prisoner sentenced to imprisonment in default of payment of fine receives another sentence while undergoing such imprisonment, the second sentence shall begin from the date on which the first sentence expires or if the fine is paid, from the date of payment.

Example: A prisoner is sentenced on 31st January to pay a fine of Rs.300 or in default to two months’ rigorous imprisonment and on 12th February of the same year he is sentenced on another account to an additional imprisonment for four months. The fine is paid in full on 28th February. The sentence of four months of imprisonment shall begin from 28th February and not from 31st January.

- (iii) If a prisoner, sentenced to a term of imprisonment in default of payment of fine is also, either at the same time or subsequently, sentenced to another term or terms of imprisonment, the initial sentence shall be kept in abeyance till the expiration of all the absolute sentences of imprisonment. It shall be annulled wholly or partially by the payment of the fine in whole or in part, before the expiry of that period or so long as imprisonment continues.

Explanation: This rule covers the case of a prisoner whose first sentence of imprisonment is only in default of payment of fine. The substantive sentences of imprisonment, subsequently imposed, shall count from the date of the first sentence and the imprisonment in default of payment of fine shall take effect last, although a portion of it may have been already served when the substantive sentence were awarded, unless the imprisonment is of a different denomination to that of the substantive sentences. In such a case the imprisonment in default of payment of fine shall be completed before the substantive sentences take effect.

- (iv) The imprisonment, which is imposed in default of payment of a fine, shall terminate whenever that fine is either paid or levied by the process of law.
- (v) If a prisoner is sentenced to imprisonment, of which he whole or any portion thereof is in default of the payment of any fine, and if the fine or a portion of it is not immediately paid, the date of release shall be calculated and entered on the prisoner's warrant and History Ticket and in the Registers so as to correspond both with payment and with non-payment of fine.
- (vi) If a prisoner, who is sentenced to a fine and in default to imprisonment, pays a portion of the fine, the date of release shall be proportionally altered. If the imprisonment in default of payment of fine is expressed in calendar months, reduction of imprisonment to be made in consequence of such payment, shall be calculated in calendar months and not in days. Any fraction of a month obtained by such calculation shall be reduced to days. When the fraction thus obtained is not exactly equal to any number of days or is less than a single day, the portion of a day which results shall be considered and treated as being equal to a full day.

Example: A Prisoner is sentenced on 1st January to a fine of Rs.300 or in default to six months' imprisonment. No part of the fine is realized except a sum of 75 paise. He shall be released on 29th June, even though the amount realized is less than the full amount due for a single day.

- (vii) When a prisoner is sentenced to fine and the fine is paid in instalments, the period of sentence to be remitted shall not be calculated on the individual payments but on the aggregate of the several previous payments.

Example: If a prisoner is sentenced on 1st January to six months' imprisonment and to a fine of Rs.300 and it is ordered that if the fine is not paid he shall be imprisoned for a period of six months, then if the prisoner immediately on conviction pays Rs.100 the date of release shall be first fixed at 31st October (six months plus four months as equivalent of the fine unpaid), or if he afterwards pays another Rs.100 the date will be changed to 31st August and on his paying the entire amount of the fine, to 30th June.

- (viii) If a prisoner who is sentenced to a fine and in default imprisonment for a certain number of years, months and days, pays a part of the fine, the remission for the payment shall be calculated in year and months and not in days, and any fraction of a month, obtained by such calculation shall be reduced to days. When the fraction thus obtained is not exactly equal to any number of days, or is less than a single day, the portion of a day which results shall be considered and treated as being equal to a full day, in favour of the prisoner.

Intimation of Payment of Fine

- 11.26** When fines imposed on prisoners are recovered by a court, intimation of the same will be received by the Superintendent from the Court. If the convict has been transferred elsewhere, the Superintendent shall forward such intimation by registered post to the prison in which the convict is confined. All fine intimations shall be acknowledged.
- 11.27** No action shall be taken on fine intimations which do not bear the seal of the court. Such intimation shall be returned to the court for proper authentication and affixing seal of the court. Telegrams shall not be accepted as intimations of recovery of fine. When intimation of payment of fine by a prisoner is received from a Police Officer, it shall be returned to that officer with a request that it may be forwarded through the court awarding the sentence.

Prisoners to be informed

- 11.28** When the fine has been paid, the prisoner concerned shall be informed and the payment shall be duly noted in the register, on the warrant and on the prisoner's History Ticket. The entries in the register and the warrants and History Tickets shall be signed by the Superintendent or Dy. Supdt. A separate Inward Register for the receipt of the fine intimation shall be maintained.

Imprisonment in default of giving Security plus a Substantive Sentence

- 11.29** When a person, in respect of whom an order requiring him to furnish security is made under Section 106 or 117 of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974), is at the time of such order is sentenced to or is undergoing a sentence of imprisonment, the period for which such security is required shall commence on the expiry of such sentence. In other cases such period shall commence on the date of such order being passed, unless the Magistrate, for sufficient reasons, fixes a later date. If such a person fails to give security on or before the date of expiry of his substantive sentence, he shall be detained in prison until the expiry of the period for which security is required to be furnished, or until the requisite security is furnished. It is not necessary in such cases that a formal warrant shall be issued by the Magistrate for the detention of such person in the prison after the expiry of the substantive sentence.

Illustration

- 11.30** A prisoner, while undergoing three month's imprisonment, is ordered by a Competent Court to execute a bond under Section 106 of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974) for keeping peace for a term of six months and execute a bond in a sum of Rs.25 with one surety for a like amount., fails to give security on or before the date on which the three months substantive imprisonment expires, he/she shall be detained in prison until he furnishes the required security, or until the term for which such security is to be given is completed, but not formal warrant is necessary for such detention.

If, however, a person while undergoing imprisonment in default of furnishing security is convicted of an offence committed after issue of the order under Section 122 of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974), and is sentenced to imprisonment, such sentence shall commence at the expiration of imprisonment for failure to furnish security, unless the Court directs that such Sentence shall run concurrently with the imprisonment for failure to furnish security.
- 11.32** Sentences awarded under Section 52 of the Prisons Act, 1894 (Central Act IX of 1894) shall commence on the expiry of imprisonment in default of furnishing security or from the date of receipt in the prison of an intimation that the security has been furnished.
- 11.33** Where a prisoner, who is already undergoing substantive sentence of imprisonment, has been ordered to undergo a further sentence in default of furnishing security for keeping peace or good behaviour under Chapter VIII of the Code of Criminal Procedure, 1973 (Central Act 2 of 1974), the order shall be brought to the notice of the sessions Judge to whom such Judicial Magistrate is subordinate.
- 11.34** The period mentioned in Section 122(2) of Code of Criminal Procedure, 1973 (Central Act 2 of 1974) shall be counted from the date of the order of the Sessions Judge or High Court, unless the latter specifically directs in the warrant that it is to be counted from some other date. In such a case, the direction of the Superior Court shall be complied with.
- 11.35** Detention for failure to give security is not a substantive sentence of imprisonment within the meaning of Section 427 of Code of Criminal Procedure Code, 1973 (Central Act of 1974).

Procedure when Sentence is Suspended

- 11.36** When an Appellate Court directs that the execution of a sentence, or order appealed against, be suspended, the appellant shall, if detained in prison pending further orders of such Courts, be treated in all respects as an undertrial prisoner.
- 11.37** Should be appellant be ultimately sentenced to imprisonment or imprisonment for life, the period during which the original sentence was suspended shall—
- a. if passed while the prisoner in prison, be included, and
 - b. if passed when the prisoner was at large be excluded, in computing the term for which he is sentenced by the Appellate Court.

When retrial is Ordered

- 11.38** When a court passes a sentence after a retrial, or after original sentence is reversed and retrial (fresh trial) is ordered on appeal, the previous sentence, or portion thereof, already undergone by the prisoner before the fresh trial, should also count, unless otherwise specifically directed, towards the sentence imposed after the fresh trial, excluding any period during which the prisoner was at large.
- 11.39** If a convicted is to be handed over to Police for the purpose of investigation, Government orders suspending his sentence are necessary.

Procedure when a Sentence is Modified or Reversed on Appeal

- 11.40** When a sentence on a prisoner is reversed or modified on appeal by a Court, other than the High Court, a fresh warrant will be issued by the Appellate Court to the officer in-charge of the prison and such order will also be communicated to the Lower Court.
- 11.41** Provided that when the Appellate Court orders the retrial, or committal for trial, of a prisoner under section 386 of Code of Criminal Procedure Code, 1973 (Central Act of 1974) it shall communicate its order to the Court whose decision has been reversed and the Court shall thereupon make such orders as are conformable to the judgement of the Appellate Court.
- 11.42** When a case is decided on appeal or revision by the High Court, the Court or Magistrate to which the High Court certifies its order will proceed, under the provisions of Section 388 or 405 of Code of Criminal Procedure Code, 1973 (Central Act of 1974) to issue, when necessary, fresh warrant or order to the Prison Officer.
- 11.43** In all cases in which a sentence or order is modified or reversed, whether in appeal or revision, a separate warrant shall be issued as regards each prisoner whose sentence has been so modified or reversed.

- 11.45** When the rejection by the High Court of an appeal or revision application from a prisoner is communicated to the Court by which such prisoner was convicted, such Court shall at once to cause the intimation of such decision to be given to the prisoner.
- 11.46** In cases referred by the Court of Sessions for the confirmation of a sentence of death by the High Court, the High Court will send a copy of its order to the Court of sessions which will then issue warrant's to the officer in-charge of the prison.

Prisoner shall be informed of the result of his Appeal or Application

- 11.47** In all cases the Superintendent of Prison shall acknowledged by a letter the receipt of any warrant or order or intimation, and shall also inform the prisoner of the result of his appeal or application.

Calculation of Sentence Modified on appeal

- 11.48** When an Appellate Court simply modifies a sentence passed by a Lower Court without change of section, or when an Appellate Court passes a new sentence by changing the conviction section or the punishment section or otherwise, the sentence finally passed shall count, unless otherwise specially directed, from the first day of imprisonment under the original sentence.

Witnessing the execution of death

- 12.62** Prisoners shall never be made to attend an execution. In such cases, it shall rest with the Superintendent with the prior sanction of the Inspector General of Prisons to determine what prisoners shall be selected to witness the execution.

Arrangement for execution

- 12.63** On receipt of the date of execution of the prisoner, the Superintendent shall be authorized to fix the time of execution sufficiently in advance. A report intimating the time of the execution shall be sent to the Inspector General, the Sessions Judge and the Government.

Note:- The execution shall take place early in the morning before it gets bright. The latest time of the day for different seasons will be in accordance with orders passed separately by the Government.

- 12.64** The Executive Engineer shall arrange the inspection of the gallows every quarter and before the date of a hanging as and when intimated by the Superintendent. The gallows shall be inspected and the rope tested in the presence of the Superintendent the evening before the execution, he being personally responsible that these arrangements are properly made. A new rope need not necessarily be used for every execution, but the Superintendent shall see that the rope is carefully tested. As a rule, a bag of sand weighting $1\frac{1}{2}$ times the weight of the prisoner to be hanged and dropped between 1.830 and 2.440 meters will afford a safe test of the rope. Two spare ropes for each prisoner sentenced to death shall be kept ready in reserve on the scaffold in the event of accidents.

- 12.65** The Medical Officer shall report in the medical report about the drop to be given to the prisoner at least four days before the date on which the prisoner is to be executed. The Medical Officer of the prison shall work out the details of the length of the drop to be given to a prisoner on principles shown below:-

- (i) If the prisoner weighs less than 45.360 Kgs, he should be given a drop of 2.440 mtrs.;
- (ii) If the prisoner weighs from 45.330 to 60.330 kgs, he should be given a drop of 2.290 mtrs.
- (iii) If the prisoner weighs more than 60.330 kgs, but not more than 75.330 kgs, he should be given a drop of 2.130 mtrs.;
- (iv) If the prisoner weighs more than 75.330 kgs, but not more than 90.720 kgs, he should be given a drop of 1.980 mtrs.;
- (v) If the prisoner weighs more than 200 lbs. or 91 kgs, he should be given a drop of 6 feet 1.83 mtrs.

- 12.66** Provided that so long as the extreme limits of 6 feet or 1.83 mtrs. on the one hand and 8 feet or 2.5 mtrs. on the other hand are adhered to if, owing to physical peculiarity of the prisoner, the Medical Officer is of opinion that the drop should be increased or decreased, effect should be given to the Medical Officer's opinion.

Note:- The above calculations are based on the assumption that the execution rope will be made of cotton yarn/manila of 1 inch to $1\frac{1}{2}$ inches or 2.59 to 3.81 cms Diameter.

- 12.67** The following measures shall be adopted regarding the fixing of the length of the rope to permit the required drop:

- (i) The height of the prisoner to the angle of the jaw immediately below the left ear shall be accurately measured, as well as,
- (ii) The height from the drop shutter, when fixed in position, to the lower portion of the ring in the beam to which the rope will be affixed.

12.68 These two measurements will determine the distance when the prisoner is standing in position on the drop, from the point of the latter's jaw to the ring in the beam. The measurement of the prisoner's neck shall also be carefully taken, the neck measurement and the height measurement to angle to jaw being carried out immediately after the prisoner has been sentenced to death. The length of rope for any given drop shall be the length of the drop plus the distance from the angle of the prisoner's jaw to the ring in the beam.

12.69 That is to say, that assuming the distance between the angle of the jaw and the iron ring to be 1.220 mtrs. and the desired drop to be 2.130 mtrs., the amount of free hanging from the ring shall be 3.350 mtrs. from the ring to the leather washer maintaining the loop in position on a pillow of gunny cloth, filled with sand, of the same thickness as the neck of the prisoner.

12.70 Wax/butter shall be applied to the loop of the rope. After testing, the ropes and other equipment shall be securely locked and sealed in steel box and shall be kept in charge of the Deputy Superintendent.

12.71 The gallows shall be inspected and the rope tested in the presence of the Superintendent, the evening before the execution; he being personally responsible that these arrangements are properly made. A new rope need not necessarily be used for every execution but the Superintendent shall see that the rope is carefully tested. As a rule, a dummy or a bag of sand weighing $1\frac{1}{2}$ times the weight of the prisoner, hung and dropped between 6 and 8 feet or 1.83 and 2.50 mtrs. will afford a safe test of the rope. Two spare ropes for each prisoner shall always be kept ready in reserve on the scaffold to meet any contingency.

Presence of officers at execution of prisoner

12.72 The Superintendent, Deputy Superintendent, Jailor/Dy. Jailor In-charge and Medical Officer shall be present at all executions. An Executive Magistrate deputed by the District Magistrate shall attend the execution and countersign the warrant. 12.75 Prisoners of all categories shall be kept locked-up until the execution is over and the body removed from the prison.

Execution

12.76 The Superintendent, the Executive Magistrate, the Medical Officer and the Deputy Superintendent will visit the prisoner in his cell before the hour fixed for execution. The Superintendent and the Executive Magistrate shall then identify the prisoner as the person named in the warrant and read over to him a translation of the warrant in his mother tongue. Any other documents requiring attestation by the prisoner such Superintendent and the Executive Magistrate. The hands of the convict shall be pinioned behind his back.

12.77 A cotton cap with flap shall be put on the prisoner's face just before he enters the gallows-enclosures. The prisoner should not be allowed to see the gallows. The Superintendent shall invariably see that the rope round the neck of the prisoner is adjusted properly and the knot is placed in the proper position.

12.78 The operation mentioned above should be done simultaneously and quickly as possible. On completion of all these operations, the Superintendent shall give a signal, on seeing which the executioner in charge shall push the lever to release the trap-door.

12.79 The body shall remain suspended for half an hour before being taken down or until the Chief Medical Officer has certified that the life is extinct.

Hangman's fees

12.80 The hangman shall be paid at the rates fixed by the State Government for the execution of each convict.

Disposal of body

12.81 Subject to the provision of this paragraph, the body of the executed prisoner shall be disposed of according to the requirement of the religion to which the executed convict belonged.

12.82 If the executed prisoner's relatives make a written application for performing the last rites, the Superintendent may, in his discretion, allow such request, provided that the relatives give an undertaking in writing that they will not make a public demonstration at cremation/burial. In cases where the Superintendent thinks that there is a likelihood of a public demonstration, he has the authority to refuse such permission. In cases of disposal of the body of executed prisoner, in whose case there is likelihood of public demonstration, the Superintendent shall consult the District Magistrate and arrangements for the disposal of the body shall be made according the requirements of the situation. In such event, the Superintendent shall act in accordance with the instructions of the District Magistrate.

12.83 Except as provided in this chapter, the body of the executed prisoner shall be taken out of the prison with all solemnity. A municipal hearse or ambulance shall be used for the transportation of the body to the cremation or burial ground. The Superintendent is authorized to incur all responsible expenditure required for the transportation and disposal of the dead body.

Report of execution of death sentence

12.84 The Superintendent shall, immediately after each execution, send a report thereof to the Inspector General of Prisons in Appendix-10 and he shall return the warrant duly endorsed to the Court which issued it. Incorporate the guidelines for safeguarding the interest of the Death Row Convict issued by the M.H.A on 04.02.2014.

CHAPTER XIV EDUCATION OF PRISONERS

- 14.01** Education is vital for the overall development of prisoners. Through education their outlook, habits and total perspective of life can be changed. Education of prisoners benefits the society as well as it leads to their rehabilitation and self-sufficiency. Education reduces the tendency to crime. This would mean less crime, fewer victims, fewer prisoners, more socially productive people, and less expenditure on criminal justice and law enforcement.
- 14.02** Education is harmonious and all round development of human faculties-mental as well as physical. It is a tool by which the knowledge, character and behaviour of the inmate can be moulded. It helps a prisoner to adjust to the social environment and his ultimate resettlement in society.
- 14.03** Life in the prison is extremely monotonous, routinised and regimented. The Educational activities offer opportunity to a prisoner to remove from his mind depressing thoughts leading to relaxation and joy. We must accept the reality that to confine offenders behind walls, without trying to change them through education and other activities, is an expensive folly.

Objective

- 14.04** The objective behind educational programmes in prisons should be to channelise prisoners' energies into constructive and creative pursuits, instilling in them a sense of confidence, developing amongst them social responsibility and consciousness, fostering amongst them habits and attitudes necessary for adjusting in the community, creating amongst them an awareness of the futility of leading a criminal life and uplifting them normally, mentally and socially. A comprehensive educational programme in a prison should aim at:
- (i) providing opportunities to the illiterate inmates to achieve at least a certain minimum level of education,
 - (ii) extending facilities to illiterate inmates to advance their educational standards,
 - (iii) developing a better understanding of the duties and obligations of a citizen,
 - (iv) improving the attitude of inmates towards society and fostering a desire to live as good citizens,
 - (v) assisting the development of good social and ethical habits and attitudes so that the inmates may properly adjust their lives in the community,
 - (vi) helping them to improve their personalities and ability for social adjustment through individual and group guidance in social living,
 - (vii) developing a point of view which will make the futility of a criminal way of life apparent to the inmates, making them aware of the advantages of a law abiding life,
 - (viii) stimulating sustained interest and effort towards self-improvement, and
 - (ix) developing social consciousness and a sense of social responsibility and obligations.

*PLANNING***14.05 Educational plan for prisoners will be so that:**

- (i) Each prisoner should be given a programme of education which will help the process of his socialization and rehabilitation. In order to achieve these objectives an adequately trained educational staff and minimum facilities like classrooms and library should be provided in every prison.
- (ii) Education of illiterate adolescents and adult prisoners shall be compulsory. Correctional Services will pay special attention to educational programmes.
- (iii) Because of wide variations in intelligence level and individual interests of inmates, it is essential to organize diverse educational programmes to suit the needs of the larger groups.

- (iv) Educational programmes should cover subjects which would help develop the inmate as affective member of social groups. The programmes should also help develop insight on the part of the inmates.
- (v) The nature of the educational programmes in an institution should be related to the size and type of the inmate population and the time earmarked for these programmes. Educational activities should be developed in conjunction with the overall programme of an institution.
- (vi) As far as practicable, the education of prisoners shall be integrated with the educational system of the U/T so that after their release they may continue their education without difficulty. These programmes should be related to after-care programmes also.
- (vii) The education policy should be formulated in a manner which is adjustable to social environment, leading to ultimate resettlement of a prisoner in the society. Education should be organized at three levels:
 - (a) For the beginners and illiterate inmates
 - (b) For the intermediates
 - (c) For advanced education
- (viii) Educational personnel should be oriented, through special training courses, to correctional polices, programmes and methods as far as practicable.
- (ix) Non-Governmental Organizations should be extensively involved in the educational programmes.

Nature of an Educational Programme

14.06 The educational programme should consist of:

- (i) Physical and health education
- (ii) Academic education
- (iii) Social education
- (iv) Vocational education
- (v) Moral and spiritual education including Meditation
- (vi) Cultural education
- (vii) Computer Education
- (viii) Legal education /awareness

Educational Policy for Inmates

14.07 On admission to the prison, the criteria for initial classification of prisoners should be done on the basis of their educational background, their aptitude to follow further studies, their social background and vocational education.

14.08 The policy behind academic education should aim at:

- (i) Making every illiterate prisoner literate
- (ii) Developing educational qualifications of prisoners

14.09 If a prisoner, who was pursuing studies before his imprisonment expresses his intention to continue his studies and appear for an examination of any Board/University or Institution, he should be given due facilities for it. He should be allowed to receive books and writing material from his friends and relatives from outside and purchase books and such materials out of his personnel case kept in the custody of the prison, or at government expenses. Such facilities should also be extended to a prisoner who has given up his studies before his imprisonment, but expresses his intention to proceed with it with a view to appear in an examination conducted by any University or other statutory body or a recognize Institution.

Classification of Prisoner

- 14.10** Prisoners should be classified on the basis of their academic/educational qualification and their aptitude for further learning at the time of admission in the prison. *CHAPTER XIX PAROLE AND

It also helps him maintain and develop a sense of self-confidence. Continue contacts with family and the community sustain in him a hope for life. The provisions for grant of leave should be liberalized to help a prisoner maintain a harmonious relationship with his family. The privilege of leave should, of course, be allowed to selective prisoners on the basis of well-defined norms of eligibility and propriety.

CHAPTER XX PREMATURE RELEASE

- 20.01

The Primary objective underlying premature release is reformation of offenders and their rehabilitation and integration into the society, while at the same time ensuring the protection of society from criminal activities. These two aspects are closely interlinked. Incidental to the same is the conduct, behaviour and performance of prisoners while in prison. These have a bearing on their rehabilitative potential and the possibility of their being released by virtue of remission earned by them, or by an order granting them premature release. The most important consideration for pre-mature release of prisoners is that they have become harmless and useful member of a civilized society. For the purpose of recommending the pre-mature release of prisoners in each state a Sentence Review Board should be set up to advise the Government.
- 20.02

Premature release of prisoners can be of following four types:

(i)

By way of commutation of sentence of life convict and other convict under Section 433 of the Code of Criminal Procedure, 1973 by the State Government.

(ii)

By way of remitting term sentence of prisoner under Section 432 of the Code of Criminal Procedure, 1973 by the State Government.

(iii)

By order of the Head of the State passed exercising power under Article 161 of the Constitution of India, as the case may be.

(iv)

Premature release under special law enacted by the Central Government providing for release on probation of good conduct prisoners after they have served a part of the sentence.
- 20.03

No guidelines need to be prescribed here for premature release of convicts failing under sub- clause 2 (ii) to 2 (iv) above because the relevant provision of the Code of Criminal Procedure, 1973, the Constitution of India and the special legislation of the State are to be followed. For premature release of convicts falling under sub-clause 2 (i) above, guidelines or policy for premature release of life convicts as prescribed in the chapter may followed.

Composition of the State Sentence Review Board:

CHAPTER XXI PRISON

DISCIPLINE

Principles:

- 21.01** Prison discipline is the prime mover of a dynamic and interactive human mechanism called the correctional process, which an offender undergoes to get reformed into a law-abiding and dignified citizen, who can become self-reliant after his/her release and deserve a rightful place in the mainstream of the society.
- 21.02** An offender, after release, always faces cold treatment and rejection from the society at large. On account of such rejection and dislike, the gap between an offender and the society becomes wider. This sends the offender back into the world of crime, and from there again to custody, making a vicious circle. This is how crime recurs. Correctional work aims to bridge the gulf between the offender and the mainstream society.
- 21.03** Prison discipline should not be retributive but reformatory, not repressive but curative; and should be carried on with a view to foster the basic values and virtues of life and humanity.
- 21.04** Prison discipline is the collective responsibility of all the prison personnel who are actually supposed to usher in reformation to the offender.
- 21.05** Prison discipline should also ensure impeccable security in the prison so that the safe custody and well being of the prisoners is not in jeopardy.
- 21.06** Prison discipline shall also envisage a tidy ambience in the premises, which is conducive to create work in the field of culture, literacy and vocational training.
- 21.07** Prison discipline shall be supported and given a human face by:
- (i) Sympathetic and patient understanding of the predicaments of the inmates, with follow-up guidance and counselling, which will act as an emotional support base to them. Counselling will also act as a preventive measure against despondency in their psyche.
 - (ii) Introducing a system of incentives and rewards, which will be accorded to the deserving inmates making rapid progress on the path of correction.
 - (iii) Exemplary conduct on the part of the Superintendent, **Jailor** and other prison personnel will go a long way to encourage prisoners to return to the society at large and make it a better place for posterity.

Scope:

- 21.08** Prison discipline shall cover all aspects of Institutional life such as:

CHAPTER XXII

AFTER-CARE AND REHABILITATION

22.01 The process of after-care and rehabilitation of offenders is an integral part of institutional care and treatment. These two should never be de-linked. The after-care of a prisoner is an extension of the institutional treatment programme; hence the administrative machinery for carrying out these programmes should be effectively integrated with the department of prisons.

22.02 It is clear that after-care, and follow-up service is not required by each and every inmate leaving the prison. A large number of prisoners coming from the rural areas and agrarian and business communities are generally accepted back into their family. They are re-assimilated in the social milieu without much difficulty. They require only some continued contact with their kin and some pre-release counselling to bridge the gap between their life in the prison and that in the free society.

22.03 There are other prisoners who resist follow-up, action as they consider it a kind of surveillance on them. But majority of inmates would welcome such programmes which help them settle in the society after their release, and get themselves rehabilitated beyond the possibility of reverting to crime.

Objectives:

22.04 The objectives of the after-care services are:

- (i) Extending help, guidance, counselling, support and protection to all released prisoners, whenever necessary.
- (ii) Helping a released person to overcome his/her mental, social and economic difficulties.
- (iii) Helping in the removal of any social stigma that may have been attached to the inmate or his/her family because of his incarceration.
- (iv) Impressing upon the individual and need to adjust his/her habits, attitudes, approaches and values to a rational appreciation of social responsibilities and obligations and the requirements of community living.
- (v) Helping the individual in making satisfactory readjustment with his/her family, neighbourhood, work group and the community.
- (vi) Assisting in the process of the individual's physical, mental, vocational, economic, social and attitudinal post-release readjustment and ultimate rehabilitation.

Process:

22.05 After-care services should be extended to all needy persons released from prisons, conditionally or unconditionally or on license. A minimum of five years of imprisonment should be necessary to enable a prisoner to avail after-care services.

22.06 After care problems of an individual should be treated in their totality and not in isolation. Not only the individual but his/her whole social situation must be tackled at the same time.

22.07 After-care work should broadly be phased as follows:

- (i) While the individual is under institutional care and treatment.
- (ii) Immediately after release from the institution.
- (iii) Post-release period.

22.08 There should be full coordination between the correctional Services and the after-care services.

22.09 While extending help, the after-care services should devote social attention to the protection and post-release care and help of children, adolescents, women, sick, old, infirm and handicapped persons. Special emphasis should be laid on the after-care of habitual offenders, if they so request.

Planning:

- 22.10** Planning for after-care should be initiated immediately after an inmate's admission in the institution.
- 22.11** After-care should be in the interest of the individual and based on his/her needs. The Classification Committee should plan after-care programmes. While planning post-release assistance, factors like the inmate's personality, his weaknesses and strengths, limitations and capabilities, and his/her rehabilitation needs should be taken into consideration. The inmate's desires for post-release help should be considered on a practical and realistic basis.
- 22.12** The inmate should be told what type of assistance would best suit his/her needs. He/She should be encouraged to plan his/her post-release life, as this would be helpful in his/her willing acceptance of the after-care plan. He/She should be prepared for his post-release life.
- 22.13** From the time of a prisoner's admission into prison, consideration should be given to his/her post-release needs and he/she should be encouraged and assisted to maintain or establish such relations (with persons or agencies outside the institution) as may promote the best interests of his/her family and his/her own social rehabilitation. Special attention should be paid to the maintenance and improvement of such relations between a prisoner and his/her family, as are desirable in the best interest of both.

Functioning of a Welfare Officer:

- 22.14** The **Welfare Officer** should contact the inmate during his/ her admission-quarantine period. Such an early contact will be helpful in planning over-all help for the inmate and his/ her family. The Welfare Officer should meet the inmate throughout his/ her stay in the institution.
- 22.15** The **Welfare Officer** should extend all possible assistance in maintaining the inmate's continued relationship with his/her family, employer and community. The welfare of the family members and dependents of offenders, should be looked after.
- 22.16** The **Welfare Officer** should be associated with the prisoner's welfare services.

The Role of N.G.Os:

- 22.17** The participation of N.G.Os in the rehabilitation programmes should be extensively encouraged. Voluntary organizations, which wish to help the government in rehabilitation projects, should be given necessary financial and other help. Their services should be given due appreciation by the Inspector General of Prisons.

Scope of After-care Assistance:

- 22.21** The scope of after-care assistance will be determined by the District Committee and may include the following matters:
- (i) Subsistence money to cover initial expenditure after release, till such time as the released person reaches his/her family or obtains employment.

If the Classification Committee is convinced that the inmate is fit for treatment in a open institution, a report in the prescribed form should be sent to the Inspector General of Prisons for his transfer. On receipt of sanction of the Inspector General, the inmate should be oriented for his life in the open institution. He should be made to understand that the failure to satisfactory behaviour there would entail his retransfer to the Closed Institution.

On receipt of sanction from the Inspector General the inmate should be oriented to his new responsibilities in a Semi-open Institution.

Transfer to an Open Colony should be made only after ensuring that the inmate has satisfactorily responded to the treatment in Semi-open and Open Institutions. These transfers should be done on a highly selective basis. Care should be taken to see that selection for treatment in an Open Colony does not become reutilised and mechanical.
- 23.14** Before being transferred to an Open Work Camp/Semi-open or Open Institutions/Open Colony, the inmate should be informed about the requirements and responsibilities of living in the new institution. On admission at these institutions, the inmate should be kept in the reception yard observation. Arrangements for such stay should be made in a family hutment in a suitable place outside the Open Institution. These huts should be so located that the inmate and his family members get the required privacy while at the same time the requirements of discipline and security are also fulfilled. The period of stay in the family hutments should be treated as leave period and should count towards the sentence.
- Note:** Such a periodical stay with his family will be helpful in keeping the inmate close to his family group. This concession should, however, be granted on a selective basis and after a thorough study of each inmate's case. Initially this concession should be tried on an experimental basis. In due course, and after having gained enough experience, it may be further developed to suit local conditions. The Administration should issue detailed instructions in the respect.

*CHAPTER XXXI PRISON**COMPUTERISATION*

- 31.01** The entire prison administration needs to be computerized so that database can be accessed easily and managed more efficiently. This is also part of the mandate of the Integrated Criminal Justice System (ICJS) which seeks to interlink prisons, courts and the police stations as a triad. This would enabling integrated data sharing with the police and the courts enabling efficient and comprehensive tracking of criminals and faster law enforcement responses. There are several stakeholders involved in processes of prisons, including the police, courts and external agencies like hospitals, medical authorities etc. and it is extremely important to develop suitable interfaces that can help in seamless sharing of information amongst different agencies.
- 31.02** The major challenges faced by prisons' administration presently in performing their mandated activities effectively and efficiently are:
- (a) Unavailability of real time information at central level;
 - (b) Non-centralized information repository of prisoners; Improper tracking of prisoner activities; Inadequate interaction with various stakeholder agencies;
 - (c) Improper data analysis;
 - (d) Multiple standalone IT systems available at majorities of prisons;
 - (e) Inadequate tracking of prisoner out on parole /furlough.
 - (f) Lack of efficient alarm system in case of under-trials detention under 436/436A;
 - (g) Inadequate information pertaining to release of prisoner once completion of sentence.
- 31.03** Computerisation seeks to enable prisons to have the following core facilities and have a unified data sharing platform:
- (a) A comprehensive web based prison software with inter linkages with courts and police stations;
 - (b) Integrated data sharing with courts and police as per a tentative matrix given in Appendix-12;
 - (c) Comprehensive video conference facilities;
 - (d) Biometric access for in and out movement of inmates;
 - (e) State level training labs for induction and refresher training courses;
 - (f) Touch screen kiosks at the prisons for inmates to access their case details.
- 31.04** The following outcomes are expected after successful implementation of prison computerization:
- (a) **Seamless and integrated flow of information** across all the prisons and police department, Ministry of Home Affairs (MHA) thereby enabling real time availability of information that is easy to search and quick retrieval of prisoner information from a centralized database of prisoners.
 - (b) **Availability of Dashboards/Statistical reports/MIES reports** for senior level officers with information such as Probable Data of Release (PDR), Prison occupancy, Prisoner availing parole/furlough etc.
 - (c) **Complete record of prisoner's activities** such as bail, escape, fine payment, incident punishment, prisoner income, court appeals, court production, remission, remand, wages, work allocation, release and transfer etc.

- (d) **Workflow based solution for approval processes** like Parole /Furlough and real time reflection of the same in the system.
- (e) **Automatic PDR (Probable Date of Release) calculation** thus ensuring no delays in release of prisoners without the need for manual validation.
- (f) **Better visitor management procedure** thus helps officials in managing visitors, keeping a track of the number of visitors for a particular prisoners, frequency of visit etc.
- (g) Creation of a **Centralized Prisoner Registry** that can be accessed by the Police Departments and other key Law Enforcement Agencies for verification and validation purposes of individuals through Data Digitization of records.

31.05 Implementation of ICJS is a key component that has to be achieved in the revamped Crime and Criminal Tracking Network System (CCTNS) project. It comprises the following components:-

- (a) Roll out of prisons software in all the States/UTs;
- (b) Assessment based provisioning hardware for prisons;
- (c) Provisioning of hardware for prosecution offices and forensic labs;
- (d) Integration of CCTNS with all these applications.

For successful implementation of centralized prisons management system, provisioning of office hardware and adequate network connectivity at each prison is required. The roll out of software application and its sustainability is dependent on the availability of requisite office hardware and network connectivity at each state prison. All the States/UTs are being engaged by the Government of India for assistance in these matters in a time bound manner to complete the process in a year.

31.06 As part of the ICJS implementation all components of ICJS i.e Prisons, Courts, Police Stations, Prosecution Offices and Forensic Laboratories need to share data as per the data sharing matrix given in the Annexure. This data sharing matrix has been approved by Committee headed by Justice Mr. Madan B. Lokur of the Supreme Court of India.

HANDBOOK FOR PRISONERS

(See Chapter V)

[SOURCE : BUREAU OF POLICE RESEARCH & DEVELOPMENTS]

Introduction

The preparation of this handbook is modest step towards lending credence to human rights initiatives in prisons. An attempt has been made to clearly and lucidly inform and explain to the prisoners their rights and duties within the framework of the prison walls. This handy manual will not just meet a long-felt prisoners' need but also move the authorities towards further streamlining prison procedures and functions. While on the one hand it will make the prisoners more alive and aware about their rights, on the other it will help the prison authorities to become more sensitive and alert to prisoners' human needs. Similarly, a clear understanding of their duties shall help the prisoners to know their limitations and make the day-to-day functioning of the prison administration smoother.

The intention is to protect human rights and dignities in a prison; yet it is also being effectively conveyed that facilities and privileges in a prison cannot be taken for granted. Thus while an effective grievance redressal procedure is put in place, the prisoner is also clearly told that his privileges and other facilities are contingent on his good conduct. While all human and civil rights are extended to him, it is also incumbent upon him to abide by the prison rules and regulations.

Through it would have been proper to make a clear distinction between absolute rights and discretionary rights, the privileges and the amenities, it would have been a little confusing for the prisoner. On the premise that any conflict would be resolved by further referring to the exhaustive jail manuals and prison rules and regulations, rights and duties have been listed under convenient headings that can be easily understood by an average prisoner. Since the prisoner is the audience here, all efforts have been made to make the handbook simple readable and pleasing to the eye. To avoid reader fatigue, the text has been peppered with appropriate and communicable illustrations.

Finally, though it will be in bad taste to refer to happiness in a prison setting, a certain level of contentment can be created through a humane and congenial atmosphere, where the rights are met and obligations are fulfilled. This handbook strives to make a move just towards that.

Point No 3

The Prison Department facilitates consultation with, and representation by, members of the public in relation to the formulation and implementation of its policies. This is achieved through platforms such as the MyGov Portal and local newspapers including the *Daily Telegram* and *Dweep Samachar*, where public notices, invitations for suggestions, and policy updates are regularly published to ensure transparency and public participation.

To effectively manage and respond to such public interactions and inputs, the Prison Department has appointed a Nodal Officer. This officer is responsible for coordinating all matters related to public consultation, handling suggestions or feedback, and ensuring that public views are appropriately considered in relevant policy decisions

Point No 4

As part of its internal governance and administrative functioning, the Prison Department may constitute various bodies such as Editorial Boards for e-newsletters, Committees, and Councils, or issue orders forming other bodies consisting of two or more members. These are constituted for purposes such as internal advisory, monitoring, publication, or decision-making.

A statement regarding such bodies is as follows:

- These boards and committees are constituted for administrative and advisory purposes such as Board of Visitors, Under trial Review Committee, Sentence Review Board, and they function as integral parts of the department’s operations.
- Being related to inmates lodged in Jails, meetings of these boards, councils, and committees are generally not open to the public, as they may involve sensitive or classified administrative discussions, particularly related to prison security, personnel matters, or inmate welfare.
- However, in accordance with transparency norms under the Right to Information Act, 2005, the minutes or decisions of such meetings may be accessible to the public upon request, subject to the exemptions provided under the Act (e.g., information that may affect security, confidentiality, or personal privacy).

The Prison Department remains committed to transparency and accountability while ensuring the confidentiality necessary for the secure and effective functioning of correctional institutions.
